

# One new & One Variant ID

Blair Sitt (#3035)

In a recent Jim Mehrer auction I won the two illustrated covers with new catalog information.

The first is a cover with US perfin pattern S58. The catalog lists the user as the Sauger Amusement Co. This cover was used by "Sauger Brothers / Dallas, Texas, a variation at best on the published user ID.

In addition, where the catalog is silent on the user of pattern T19 the following cover identifies its user as

the Tuscarora Fertilizer Company of Nashville, TN.
